

# S2001

## Product descriptions

### DESCRIPTION:

S2001 is a sectional sofa designed to fit different space size. For small sized space, a simple corner sofa works well. An additional 1 seater could be a perfect solution for big space.

Our designer adopted the design concept of Canton Tower and applied it to the back and armrest of the sofa. A slim middle part just like the waist of a fair lady.

It is an award winning design of Gotrend 2020 best sofa.

### FEATURES:

- Multi sections to meet the needs of different space size
- Award winning design of Gotrend 2020
- Feather down backrest cushion and pillows brings excellent comfort.
- Excellent seating comfort with multi layer high density foam.
- Easy to clean with high leg design
- unibody forming leg without any welding point

## Product descriptions

### DESCRIPTION:

A tastefully discreet design transcends the bounds of time and fashion. The design of the cast-metal base that lifts the sofa off the floor expresses a delicate and sophisticated aesthetic edge. The slim seat backs and armrests open outward, accentuating the ethereal appearance of this sofa. The seat cushions rest on a metal base upholstered in fabric. The good details which add value could be found at many point.

### FEATURES:

- The slim & outward design lead the latest design trends.
- The high leg makes it easy to clean
- Unique multi density formula foam brings extremely seating comfort.
- Feather down back cushion & pillows add comfort to the sofa.
